Multiple Perspectives on Conflict-Resolution

Conflict: A struggle between ideas, principles, or people.

1. List all the conflicts in your story and label what type of conflict is presented (e.g. person vs. person).

2. Choose one conflict to look at from two different perspectives. Explain the conflict from each side.

Side/Perspective 1	Side/Perspective 2

3. How was the conflict resolved? Peacefully or violently?

4. Do you think the resolution was effective? Why or why not?
